

LIST OF SEED CONTRIBUTORS

This catalog contains nine lists of which this is the first and most important. Without this loyal corps of contributors who willingly share their keen interest and expertise in the genus *Rhododendron* with the American Rhododendron Society, there would be no seed exchange. They spend a great deal of time making crosses, collecting and cleaning seed.

Richard Murratt, New York Chapter, again contributed his computer and his expertise in using it to automate some of the operations of the seed exchange making this earlier distribution of the catalog possible.

Gay and Frank Arsen were responsible for proof reading.

We are grateful to them all.

Esther Berry has agreed to handle the Vireya Seed Distribution. Because this seed arrives throughout the year and is short lived, this distribution is handled separately from the main seed program. Those who are interested in acquiring this seed should send a stamped, self-addressed envelope with \$1.00 for each packet desired to Ms. Robert Berry, 617 Fairway Drive, Aberdeen, WA 98501. Contributors of Vireya seed have fallen off during the past year. If you have seed to contribute, please send it to Esther.
